TITLE

(X6) DATE

Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (see instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

R0052	<p>410 IAC 16.2-5-1.2(v)(1-6) Residents' Rights - Offense (v) Residents have the right to be free from: (1) sexual abuse; (2) physical abuse; (3) mental abuse; (4) corporal punishment; (5) neglect; and (6) involuntary seclusion.</p> <p>Based on observation, interview and record review, the facility failed to ensure all residents were free of neglect and kept from elopement for 1 of 3 residents reviewed for abuse and neglect in a total sample of 3 residents (Resident C).</p> <p>Findings include:</p> <p>Resident C's record was reviewed on 5/31/2012 at 9:30 A.M.. Resident C was admitted to the facility on 4/14/2012 and had current diagnoses, which included dementia, Parkinson's disease, and depression. A document titled "Cognitive Assessment Tool Guide" dated 4/14/2012, indicated Resident C was in the early stages of dementia, was ambulatory with a history of falls, had delusions, hallucinations/paranoia and exhibited exit seeking behaviors frequently, making her an elopement risk. Resident was admitted to this facility due to being an elopement risk.</p> <p>During an interview on 5/31/2012 at 9:10</p>	R0052	<p>The resident did pull the fire alarm. The staff did take the resident to her apartment and continued to take other residents to their apartments; following proper procedures. Immediately following assisting all residents to their apartments the staff did a count of all in-house residents and discovered the one resident missing. The licensed nurse called the police, the nursing director, and the family. A search of the facility and grounds was simultaneously in process. The nursing director called the executive director and the emergency phone list was being called. The total time from the resident being assisted to her apartment and the resident's return to the facility was approximately 40 minutes. What corrective action will be accomplished for those residents found to have been affected by the deficient practice: The Resident was placed with a 24 hour care giver immediately. How the facility will identify other residents having the potential to be affected by the same deficient practice and what corrective</p>		07/17/2012

	<p>A.M., the Executive Director (ED) indicated Resident C eloped last night (5/30/12) around 8:00 P.M. The resident has been on 15 minute checks since she had been at this facility because she was an elopement risk. She pulled the fire alarm which unlocked the doors and escaped. The ED indicated her staff reported that when the alarms went off, they put Resident C in her room and continued with fire emergency procedures. They were not aware Resident C had left her room and escaped from the building. She walked to 15th Street (approximately four blocks away) into someone's garage and refused to leave. Someone at that house called the police, and the police brought Resident C back to the facility. As far as she knew, Resident C was out of the building not more than 40 minutes.</p> <p>Observation of this facility on 5/31/2012 revealed a retention pond on the property located in the direction the resident had walked. The facility was located on a busy main thoroughfare.</p> <p>During an interview on 5/31/2012 at 10:50 A.M., Licensed Practical Nurse (LPN) #1 stated, "DON (Director of Nursing) named) makes the decisions on when to take them off of 15 minute checks." LPN</p>		<p>action will be taken: All residents residing in the Samara memory care unit have the potential to be affected by the same practice. Fire Drills will occur monthly rotating between shifts. A resident count will occur as part of the fire drill procedure; the count will be kept with the fire drill documentation. One staff member will be stationed in the front hallway on each floor in order to be able to observe the doors. The licensed nurse will silence the alarm, to lessen the anxiety of the memory care residents, and one staff member will be stationed outside the locked doors by the stairwell and the elevator in order to be able to observe the doors. What measures will be put into place or what systemic changes the facility will make to ensure that the deficient practice does not recur: The staff was in-serviced on May 31, 2012 in the All Staff Meeting with the following agenda: Fire Drills, Safe Heavens and Safety. The above stated procedure will be practiced during fire drills monthly. How the corrective action will be monitored to ensure the deficient practice will not recur, ie., what quality assurance program will be put into place and ; The Nursing Director and / or Designee, the Facility Safety Officer (Maintenance Director) and / or Designee will monitor the fire drills and report monthly the</p>

	<p>P.M. titled "Content of All Staff Inservice 1/18/2012" indicated the security doors de-activated when the fire alarms went off or during a power outage so the doors must be monitored and the residents observed closely.</p> <p>Nurses' notes from 4/15/2012 to 5/31/2012 were reviewed.</p> <p>A nurse's note dated 4/15/2012-2 P.M. indicated, "Resident was very confused, attempted to leave thru-out the day and became angry when she couldn't leave. Resident was up and active until after lunch and then had visitors and then napped. Will continue to monitor and keep active." The clinical record lacked documentation of 15 minute checks being implemented or further monitoring of the resident on this day.</p> <p>A nurse's note dated 4/16/2012 at 12:30 P.M. indicated, "...She was still confused and wanting to leave. Continued to redirect and keep busy with activities. Will continue to monitor."</p> <p>Documentation of further monitoring or 15 minutes checks were not documented on this day.</p> <p>A nurse's note dated 4/18/2012 at 2:20 P.M. indicated, "Resident doing well, still confused and seeking exit. ..." Further documentation of monitoring or 15 minute checks were not documented on this day.</p>

	<p>11:00 A.M. the DON indicated orders were not needed to implement 15 minute resident checks. If a resident was an elopement risk or had frequent falls they would be on 15 minute checks. She indicated staff might call her to talk about behaviors then implement the 15 minute checks for however long they needed to be implemented. There wasn't a specific policy, procedure, or training on when to know how to implement the checks, just generalized training on dementia that all staff received. At this time the ED who was present for this interview indicated the facility was locked and everyone in the facility was an elopement risk so 15 minute checks aren't always immediately implemented only if a resident is acting unusual. She stated, "With Memory Care residents-moment to moment thing. Anything unusual, not normal for that resident-would do 15 minute checks. Knowing our residents' behaviors can change. Does that person need extra watching for an hour, a day, whatever they do, we react." The ED further indicated the facility provided the staff with Memory Care Training before they started working, but she was unable to provide documentation it was done.</p>
